## **DETAILED ACTION**

## Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by MENKE et al. (5,239,451). Re claim 1, Menke et al. shows in fig.2 a bulb mounted within a head "14" which is pivotally mounted to a handle "16,18" and a circuit means "24" whereby the bulb can be turned on and off. In fig.5 is shown the head electrical contact "113" and ear electrical contact "76" each being adjacent one another. Re claims 2-3, in fig.5 the head contacts "113,111" are mounted at the head openings and the ear contacts "76,96" are elongated. Re claims 4-8, see the electrical connections in figs.5 and 7 between the negative and positive battery terminals and switch "24" and elongated ear contacts "76,96".

## Allowable Subject Matter

- 3. Claims 9-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 4. Claims 17-20 are allowed.
